Dear Harold, Feb. 11, 1994

We had a minor ice storm overnight, but I am sure it is nothing compared to what you have been hit with (continually) this winter. The strange thing down here is that we had a record high just 48hrs ago of 75 ! Hope you and Lillian are bearing up ok.

That was some letter from Linda Hunt! I also enjoyed and learned from reading the article attached. I have ordered her book for our library, and hopefully I will get a chance to read it before too long.

I know how frustrated you must be, given the apparent editorial deletions from Case Opened. In all the talks and interviews I have given recently, I have gone out of my way to underscore the fraudulent nature of Posner's book: that he misrepresents, ignores, and lies about the official evidence, as the Warren Commission itself did. That seems to me to be the crux, and to edit those things out would greatly undermine Case Opened. I hope Richard Gallen will be able to see that, even if he wants a smaller book than you've written. Also, I believe, as you recognize, the need to confront the slander against you, Sylvia Meagher, perhaps even "Richard" Wrone. It may be too late now, and I don't know what I could add to your own efforts, but I would be happy to write Gallen and make some of these points. Let me know if you think it might help. In any case, I am looking forward to it.

Best,

Gary
